

COVID-19 UPDATE

ENERGIZE DELAWARE wants to keep you and your family safe.

You are receiving this informational flyer because you have expressed an interest in the Energize Delaware Home Performance with ENERGY STAR® Program. The Contractors that participate in this program are independent service providers with expertise in home energy systems. An energy assessment requires the contractor to view and physically enter most areas of your home to perform diagnostic testing and assess current conditions throughout the home.

Please be sure to discuss safety precautions the contractor will follow while in your home before agreeing to continue in the program. If anyone in your home is experiencing any potential symptoms of COVID-19, please reschedule your appointment.

Additional COVID-19 Information can be found at:

de.gov/coronavirus and cdc.gov/coronavirus
