FREE WEBINAR

Energize Delaware's Increased Incentives and Technical Support for Affordable Housing

Is your next project a fit?

Learn how Energize Delaware's increased incentives can lower costs and improve building performance, how technical support, from design review and specifications through construction and certification, helps your project team get it right, and how to tell if your next project is a fit.

DATE	TIME	WHERE
Tuesday, November 3, 2026	**12:15–1:15 PM ET**	**Online**

Why Attend This Webinar?

1 Lower Your Project Costs

Incentives and technical support through **Climate Smart Homes** and **Affordable Multifamily Housing**.

2 Get In Early, Get More

Learn when to bring a project forward so the programs can shape design, equipment and financing decisions.

3 Hear From an Owner

How a Delaware affordable housing owner put the program to work, in their own words.

Who should attend: affordable housing developers and owners · architects and engineers · contractors and trades · property and asset managers

Planning a project in the next 12–24 months? Bring it to us early, before design, equipment and financing are locked in.
