PROJECT DESCRIPTION AND ENERGY & WATER CONSERVATION OPPORTUNITIES

Are you planning major building renovations in the next few years? (Such renovations would include, but should not be limited to, HVAC system upgrades, new roof, etc.) Please describe all that apply:

TECHNICAL ASSISTANCE NEEDS

This program may provide technical assistance services, listed below, to plan and implement projects effectively. Please check those you feel would help this project.

- ☐ Energy audit
- ☐ Energy upgrade support (RFP preparation, contractor selection, upgrade oversight, etc.)
- ☐ Project design support
- ☐ Energy modeling (including HERS, ASHRAE)
- ☐ Field testing and verification (including HERS Rater activities)
- ☐ Solar/ renewables evaluation
- ☐ Other (Describe)

PROPERTY AFFORDABILITY VERIFICATION

The Affordable Multifamily Housing Program is designed for buildings receiving assistance from a government housing program (e.g. HUD, USDA, LIHTC, etc.) or where a majority of resident households pay no more than the DSHA Payment Standards, as posted here: http://www.destatehousing.com/Renters/rentersmedia/payment_standards.pdf

Is this property "affordable" as described above? ☐ Yes ☐ No ☐ Not sure
